

RS-MMC 4.0 CARD

Feature

- > High Speed : Maximum Read / Write = 23MB / 20MB (condition apply)
- > Excellent Reliability and Compatibility
- > Support 3 Different Data Bus Width Modes : 1 bit / 4 bit / 8 bit
- > Support SPI Mode
- > Support Lock / Unlock Command
- > Support Write Protect Command
- > Support Erase Command
- > High Storage Capacity: Up to 512MB
- > Support ECC Circuit to Protect Data Communication
- > Compact for Portability
- > Support Voltage: Range 2.7V~3.6V

Basic Specification

- > Support MMC System Specification : version 4.0
- > Backward Compatible with Previous Versions.
- > Dimension: 18mm(L) x 24mm(W) x 1.4mm(H)
- > Operating Temperature: 0°C ~ 60°C
- > Storage Temperature: -20°C ~ 85°C
- > Low Power Consumption for Portable Device.
 - Sleep Current < 150uA
 - Read Operation < 60mA
 - Write Operation < 60mA
